

Github action security check:

Ci.yml all security check success.

Infra.yml AWS infra running successfully.

The screenshot displays the GitHub Actions interface for a workflow named 'infra.yml' in the repository 'internal / secureflow'. The workflow is triggered by a push to the 'main' branch and has a status of 'Success' with a total duration of 25m 20s. The workflow consists of two steps: 'Infrastructure Security Scan' (35s) and 'Deploy AWS Infrastru...' (24m 38s). The left sidebar shows the 'Summary' tab with a list of jobs and run details. The main area shows the workflow graph and the 'infra.yml' file path.
